

Sour Plum Collection

Plant-based sour plum beverages in powder, concentrate and ready-to-drink formats

Category Overview

A focused collection built around traditional sour plum flavor and plant-derived ingredients, covering household use, foodservice support, commercial beverage applications and channel supply.

Product Formats

Powder-form sour plum crystals and instant drinks; concentrated sour plum juice, paste and BIB formats; ready-to-drink sour plum beverages in bottle, pouch and foodservice formats.

Typical Applications

Household preparation, restaurant pairing, hotpot beverage service, beverage bases, foodservice mixing, retail, convenience and seasonal cold-drink programs.

Commercial Value

Flexible formats and pack sizes, stable flavor profile, efficient storage and preparation, with support for specification discussions and OEM / private-label conversations.

Available Support

Product information, technical discussion, sample requests, packaging-format review and U.S. B2B coordination through R&M Trading LLC.
